## Whole Food Practice's Nutritional Clinical Assistant (NCA) Certification Final Pilot Program – April 2023

## **Important Notes:**

- 1. All segments of the NCA program are directed study, meaning that Whole Food Practice will provide the materials and timelines to achieve successful completion, and the costs associated with these materials are included in the tuition.
- 2. A dedicated NCA Community page is provided for group communications, questions and answers and sharing great ideas with peers. All enrollees are encouraged to check posts regularly.
- 3. Enrollees are encouraged to browse the free courses on the online store <u>Visit WFP Online</u>

  Store. Once courses are selected, they will be linked to their personal library for further learning.
- 4. There will be 3 live Zoom meetings held during each enrollment period and students are encouraged to attend. The first event is a Kick-off meeting prior to the start of the program, the second is a ½-way celebration, and the final live event is at the close of formal lessons. A recording of each event will be posted in the course for those that cannot participate live.
- 5. All quizzes and the final exam are online, open book and graded immediately. NCA enrollees must pass these tests with an 80% or better. Quizzes and the final exam may be taken as many times as necessary to achieve a passing score.
- 6. Completed transcripts will be sent to Texas Chiropractic College for final review and processing and an official certificate with the colleges seal will be sent in 3-6 weeks.
- 7. Enrollees that satisfactorily complete the program will have earned the credential NCA (Nutritional Clinical Assistant). The credential and title can be used in clinic marketing, staff announcements, nametags, resumes, etc.
- 8. There are no recertification requirements for this one-time certification program.
- 9. Completion timelines are guidelines. Enrollees will be encouraged to maintain a schedule of study that keeps them on track, but no penalty will be assessed if more time is needed. They will be dropped from active enrollee communications and will need to stay motivated to complete the program on their own.
- 10. Direct coaching sessions must be completed during the designated course timeframe (by the end of week 24) or they will be forfeited. This will ensure enrollees in each session receive adequate time and attention.
